## Message from our CEO

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.

It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.

Stevin Shipping continues to innovate and pioneer in markets where we see potential and where our clients need us most.

# Project Bulk and ODC Cargo Unit

## Project Bulk and ODC Cargo Unit

Some cargoes decline to squeeze into slick little bundles for basic transportation. They're too large, excessively weighty, excessively abnormal, or just excessively concentrated to fit the standard. From many years, Stevin Shipping has been a forerunner in moving a wide range of venture freight from source to objective.

We have handled project cargoes for customers in the offshore, heavy industry, and construction sectors, as well as heavy lift shipments for art galleries, brewing companies, and even an underwater restaurant. In India, project cargo is always on the move to meet the needs of both the public and private industries. Stevin Shipping India specializes in turnkey solutions that minimize costs and optimize resources. We have many years of experience in handling bulk and project cargoes, with established contacts with project vessels and bulk owners. We ensure strict quality throughout the project life.

Our flexible project logistics services include:

- ✔ Site survey and feasibility studies (routes, weather, political climate)
- ✔ Computer-aided loading plans
- ✔ Full / part charter parties (air charters, time/ voyage charters)
- ✔ Multi-modal transport (rail, tug & barge, heavy lift)
- ✔ Special equipment transport (flat racks, open tops, platforms, tween deck solutions)
- ✔ Freight negotiation (COA negotiation, long-term rate validities)
- ✔ Administrative support (customs clearance, trade documentation)

With the increasing need for infrastructure and various engineering and construction projects bolstering its growth, it is important to find the right logistics partner who can transport Over-Dimensional Cargo (ODC) from factory to foundation. Backed by experience and expertise garnered over more than two decades in the industry, we bring you specialised logistics solutions for your ODC cargo. Our team is well-equipped to conduct technical feasibility tests, plan optimal transport routes and handle all your local documentation and customs formalities. We'll handle your cargo with care and ensure the highest levels of safety, so you can be worry-free. While you enable projects that drive development, leave the logistics to us. We'll design a solution that's just right for your ODC cargo transportation needs.

# Vessel Chartering

## Vessels Chartering

We offer a large number of boats and freight business related administrations to a different worldwide customer base of charterers, administrators, transport proprietors, transporters and beneficiaries exchanging tramp market. Our delivery business is associated with transportation of grains, oils, seeds, manures, prepares, iron metal, coal, natural substance, sugar, and so forth.

**Operation Routes:** Domestic Coastal, SE Asia and Far East, U.S. Gulf, Australia, W. Africa, N. Africa and Middle East (Mena), Persian Gulf, Black sea and Med, Baltic sea and other areas.

Our Chartering division works intimately with transport proprietors to contract vessels for our client's shipments (both part and full freight) by checking and arranging all specialized, legitimate and business angles. In doing as such, we can assist with limiting any gamble encompassing the transportation of our client's transfers, by providing them with transport that is completely agreeable with global guidelines.

Moreover for ship-owners, charterers and/or operators of the vessels we also provide marine survey like:

- ✓ On/off hire survey, bunker & condition survey
- ✓ Damage inspection
- ✓ Loss prevention inspection
- ✓ Pre-purchase survey (Ship & Cargo)
- ✓ Supercargo service
- ✓ Marine casualties, collisions, grounding, stranding, pollution survey

### Warehousing

Freight forwarding companies within SeaRates.com provide warehousing services in different cities of the world for handling and storage of goods. Covered warehouses can be intended for piece and bulk cargo, which allows, regardless of weather conditions, to store goods in complete safety. Freight forwarders pass a special qualification, and as a rule they have a huge experience for all types of cargo and all the necessary equipment for this. Given that warehouses are often located right in the ports, the implementation of warehousing services becomes much easier and easier. The container terminal is located in the maximum proximity to the premises, which makes it possible to carry out the dispatch of containers promptly, without any delays. The huge covered warehouse is a spacious room in which your cargo will be in complete safety. Warehouse services can be provided as a whole complex, and selective services.

# STEVIN SERVICE

## Steel Import

### Steel Coil

Steel coil- a finished steel product such as sheet or strip which has been wound or coiled after rolling. In the light of experience gained during these years, Stevin Shipping classifies steel coils into hot and cold- rolled types, or stainless steel coil, carbon coil and Galvanized Steel according to current products and international standards.

Stevin Shipping supplies a wide range of cold-rolled and hot rolled steel coils according to China Industrial Standards, the standards of other countries and our own strict standards.

### Steel Pallets

Steel pallets are the strongest alternative for load carriers. They can be custom-designed to fit individual loads and handling requirements. Both painted and galvanized surface treatments are available. The main advantages of steel pallets are that they are customizable, strong, easy to handle and can be painted and galvanized.

### Steel Billets

Steel billets are the second stage product produced during the time process of making steel bars. The raw steel can't be utilized in its pure form; it needs to be cast into shape before it is employed. The newly created steel, which is still as a metal bar or square shape, is called steel billet.

# Customs, Vat and Duty Management

## Customs ,Vat and Duty Management

You can contact us for various customs formalities with regard to export, import, storage and transit shipments. We are also happy to help you with veterinary inspections. Or we advise you on specific customs or tax issues. Unburdening, that's what we stand for.

Both import and export require customs formalities with many different types of documents. These documents may also differ per country and product. Our customs declarants are specialized in these regulations and organize the necessary documents for your shipment. In this way, the import, export and transit of your loads takes place quickly and effectively.

### Veterinary Inspections

Some shipments require an inspection before the shipment is accepted. For this, the shipment must be inspected at an inspection point. We have a fixed number of inspection locks at various inspection points and can thus guarantee a quick inspection of your goods.

### Fixed flow of goods

Do you have a fixed flow of goods with several shipments per month? Then we set up a work process for you. You will receive a workflow from us in which the process is clearly explained step-by-step for all parties. In addition, we can automate the process, which saves a lot of time for both you and us. We can agree an attractive rate for larger volumes.
